PROFESSIONAL SUMMARY

I create impact through code by building hands-on projects inspired by real-world causes and solving them with clarity, precision, and efficiency. Skilled in React, modern JavaScript (ES6+), Express.js, and MongoDB. I'm always learning, adapting to build smarter and faster with AI.

EXPERIENCE

Accountzy Solutions

Dec 2025 – Apr 2026

Full Stack Developer

Hybrid (Delhi)

- Developed features for an ERP and Accounting SaaS product serving business management and financial operations.
- Implemented reusable React components and optimized frontend architecture for scalability and maintainability across both web and mobile applications.
- Built secure backend APIs using Node.js and Express.js to manage accounting and operational data.
- Designed MongoDB schemas and handled data relationships for efficient data storage and retrieval.
- Contributed to mobile application development using React Native and collaborated with UI/UX designers to deliver responsive and intuitive user experiences.

PROJECTS

• SnapDoor – A Quick-Commerce platform (MERN)

Tech : React.js, Tailwind CSS, REST API, Multer, Node.js, Express.js, MongoDB, Cloudinary

- Built a Full-Stack quick-commerce platform with secure authentication and OTP-based user verification.
- Developed a dynamic admin panel to manage products, users, and orders efficiently with real-time updates.
- Implemented a schema-based structure for scalable backend data modeling and clean API integration.
- Deployed the application on Vercel and Render ensuring production stability and reliable performance.

• JobSpot – Full Stack job search platform – in progress

Tech : React.js, Redux Toolkit, Node.js, Express.js, MongoDB, Tailwind CSS, Firebase

[Github](#)

- Built a job portal with authentication, profile management, and skill-based job recommendations.
- Implemented real-time search, filtering, and job bookmarking features using Redux Toolkit and MongoDB.
- Enhanced user experience through shimmer loaders, toast notifications, and responsive design.

TECHNICAL SKILLS

• Frontend:

JavaScript (ES6+), OOPS, React.js, Tailwind CSS, Responsive Design, Component-based Architecture, Redux Toolkit, Firebase, React Native, Expo, Nativewind, Clerk

• Backend & Databases:

Node.js, Express.js, MongoDB, REST APIs, JSON, JWT Authentication, Multer, Cloudinary, Controller-based structure, Mongoose, Aggregation Pipeline, Relationships in MongoDB, Prisma ORM, PostgreSQL, Neon (serverless database)

• Tools & Platforms:

Git, GitHub, Figma, VS Code, Postman, Netlify, Vercel, Chrome DevTools, Expo Go

EDUCATION

Full Stack Development Program – Dice Academy, Delhi

Sep 2024 – Oct 2025
